**TROUBLE IN IRELAND**  
The "Reichspost" says that it has information from the "most unassailable source" that with the October putsch there will break out trouble in Tripoli, Algeria, Ireland, Switzerland, and in the Baltic. The publication of these accusations in the Government's official paper has created the deepest impression in Vienna. It is emphasised that authority would not have been given for the dissemination of the news if the Austrian Government had not been certain of their facts.—Exchange.
